

SPIRITUAL HELP *for* EVERYDAY LIFE

w/ **INGRID AUER®**

HEAL GODDESS WITHIN!

EVERYTHING YOU NEED TO KNOW ABOUT
ARCHETYPES, GODDESSES AND MARY MAGDALENE

Now, in our time of great transformation, we have the opportunity to heal and integrate issues which have been stuck away and buried for millennia. What is meant here specifically, is our connection to a primal female vibration: the abilities, potentials and energies that come with it and which generations of women were not allowed to live, because society has been imprinted and dominated by a solely male principle.

What is at stake here in a transformational process that spans the globe, is not so much emancipation and equality of the sexes, but rather an awareness and re-awakening of the female spirit, its power and its potential. This, then, will bring about a true balance between male and female principles on Planet Earth.
