

# SPIRITUAL HELP *for* EVERYDAY LIFE

w/ **INGRID AUER®**

## SOULS ON THEIR WAY TO OUR PLANET EARTH. SPIRITUAL SUPPORT THROUGH PREGNANCY & CHILDBIRTH

Regarding pregnancy and child birth there is already a plethora of publications to choose from, covering all the stages and offering education and insight. To this very day, though, one crucial subject remains largely untouched, consciously so or not: Spirituality. Let's be honest here - hardly anybody talks about it. In proportion to the significance it carries for the well-being of the future mother and her yet to be born child, as a society, we don't give this theme the attention it deserves. The need to bring spirituality into this rather unexplored corner of life is intensifying. This is a simply so, because the changes and transformation that mankind has been undergoing for quite a while now, are revving up. So, the issue is not "which faith" and "which religion", but spiritual knowledge that reaches deep into the areas covering pregnancy and child birth and in this way, complements what orthodox medicine and its holistic counterpart are already bringing to the table. Now we truly have the chance to leave our mark on both mother and child at such a hugely important time of imprinting.

### DORIS KLOMFAR

resides in Vienna, Austria. She receives angelic messages and expresses her creativity as an author and painter. On an energetic level she is there for humans, animals and Mother Earth – and she is an enthusiastic Jin Shin Jyutsu practitioner and self-help teacher! As a child already, as far as she can think back, she has been able to see and feel beings who guide and aid humans, animals and even plants. She can read the hearts of people and senses their thoughts, worries and fears and is aware of their contradictions. This ability has posed a huge challenge for her in daily life and is an ongoing one.

Doris has lived through some intense times and can understand and relate to people with issues and disharmonies. It is all a learning process to love life just as it is and look at it with affection and courage. She is grateful to see the world through her own eyes and give her heart to it. She is in touch with everything and everybody. She is one of us, just like you!
