HEALING ON THE SPIRITUAL LEVEL FOR HUMANS AND ANIMALS ALIKE

THE DEVELOPMENT CONTINUES

It has taken quite a while already to get to the point where alternative and holistic ways of treatment have been taken seriously in Europe and other parts of the Western world. People warmed to it slowly and lots of folks, let's say the majority, still are prescribing to allopathic medicine exclusively. One reason is the fact that scientific research and technology have done extremely well and were able to save countless lives. But recently, in the wash of transformational change that has swept the globe, more and more people are orienting themselves to a new direction and discover spiritual healing methods. Energy healing, which takes mental and emotional levels of human existence into consideration, will ultimately show results on the physical level as well. Not only that: our spiritual forces and energy potential will be activated at the same time – this portion of us that has always been part of our soul, throughout many lifetimes, but has stayed dormant until now. Also, as humans are profiting from these powerful vibrations of spirit, animals are grateful to receive them as well – with astounding results.

DORIS KLOMFAR

resides in Vienna, Austria. She receives angelic messages and expresses her creativity as an author and painter. On an energetic level she is there for humans, animals and Mother Earth – and she is an enthusiastic Jin Shin Jyutsu practitioner and self-help teacher! As a child already, as far as she can think back, she has been able to see and feel beings who guide and aid humans, animals and even plants. She can read the hearts of people and senses their thoughts, worries and fears and is aware of their contradictions. This ability has posed a huge challenge for her in daily life and is an ongoing one.

Doris has lived through some intense times and can understand and relate to people with issues and disharmonies. It is all a learning process to love life just as it is and look at it with affection and courage. She is grateful to see the world through her own eyes and give her heart to it. She is in touch with everything and everybody. She is one of us, just like you!
